Residential Generator Supplement

COPY OF CONTRACT/PROPOSAL IS REQUIRED WITH THIS APPLICATION

PERMIT SUBMITTAL REQUIREMENTS

- Building Permit Application – This form must be filled out completely and include the Electrician who will be performing the installation of the generator.
- (4) copies of current Plat of Survey – Indicating location of generator, transfer switch, raceway(s), and fuel/gas piping.
- (4) legible sets of a printed or typed scope of work which must include the following:
 - The brand, model, and capacity of generator to be installed – This information can be obtained from the generators installation manual.
 - The brand, model, and specifications of the transfer switch to be utilized – This can be obtained from the switch manufacturer.
 - Location of generator, transfer switch, raceways, and fuel gas piping to/from the unit– Generators are not allowed to be placed in the side yard(s) or easement of any property. Placement in a hazardous location is also forbidden. Surface or material generator will be mounted or placed on.
 - Size dimensions of the generator. (length, width, height)
 - Type of fuel supply.
 - Size of conductors and size/material of raceway(s) used.
 - Size and type of fuel gas supply piping used.
 - Output of generator.
 - Test cycle schedule. (weekly, monthly, time of day)
 - Location of electrical disconnect for service of equipment.
 - Location of fuel gas shut off valve.
- A final inspection is required.

NOTE - This checklist provides the applicant with the information necessary for a complete submittal. Omission of any items listed constitutes an incomplete submittal and may result in a denial of the permit or a delayed approval. Additional requirements may be necessary dependant on field or specialized conditions.

All Contractors Must Have A Current Mount Prospect Contractors License Prior To The Issuance Of Permit.

Adhere to all manufacturers installation guidelines.

An improperly installed generator may become a fire hazard and can cause electrical shock or death.
