

## Menu Bar Enhancements

[eUtilities > Sign In](#)

The eUtilities menu bar has been reorganized to make navigation within the software easier and more intuitive. All of the options that were previously available are still available, but related options have been grouped together in appropriately labeled drop-down lists.

For example, the following options are now included in the **Account Details** drop-down list:

- View Bills
- Consumption Analysis
- Account History

None of these options are new; they have just been reorganized under a common heading.

The **Payments** drop-down list includes the Make a Payment option. This option is not new; it has just been relocated under a different heading.

The user profile-related features at either end of the menu bar make it easier to view and maintain your user profile and associated accounts.

For more information about these features, see **Maintaining User Profiles and its Associated Accounts**.
