

Resident Information Bulletin

2020 CDBG Sidewalk Program

Village of Mount Prospect
Public Works Department
April, 2020

INTRODUCTION

Good news! The Village of Mount Prospect will be removing and replacing portions of the public sidewalk along Elmhurst Road, between Highland Street and Camp McDonald Road; Euclid. The sidewalks will be replaced to provide a more convenient and safe pedestrian walkway. The Contractor, Mondri Construction, Inc., is scheduled to start April 18, 2016. Funds to complete the project were obtained through a special Community Development Block Grant provided by the U.S. Department of Housing and Urban Development.

WHAT KIND OF WORK WILL BE DONE?

In general, the construction process will include:

- Sawcutting and removing the existing sidewalk.
- Pouring of concrete for the new sidewalk.
- Removal and replacement of portions of the driveway, if necessary, to facilitate the sidewalk construction.
- Backfilling with topsoil along the edges of the new sidewalk that were disrupted during construction.

WHAT ABOUT ACCESS TO MY DRIVEWAY?

Because the sidewalk crosses thru driveways there will be times when you may not be able to access your driveway. You will be notified the day before that happens. If your driveway access is interrupted you can expect to be without access for about 10 days. Please allow at least three (3) full days before driving over the new concrete. You will be permitted to park on Village streets within the immediate area of your home. Please note that Golf Road is a State of Illinois Road and no parking is allowed on it. If you have special needs due to a disability or if you discover that your sidewalk has been removed with your vehicle still in your driveway or garage, please contact the Public Works Department at (847) 870-5640

WILL SERVICES TO MY HOME BE AFFECTED?

There will be no changes in your regular services such as garbage pick-up, mail delivery, or emergency Police and Fire services. However, there may be times during the day when construction activities temporarily block lanes. Please use caution when driving through the construction zone. If you have a sprinkler system, invisible dog fence, or brick pavers, please notify the Public Works Department. Per Village Ordinance, it is your responsibility to temporarily relocate, reinstall, or repair any of these items during construction.
