

### INTRODUCTION

The Village wishes to inform you the planned crosswalk project at the intersection of Central Road & Emerson Street will soon begin. Work will include construction of a raised pedestrian refuge island on Central Road, a right-in/right-out median on the north leg of the intersection, pavement markings, and signage including overhead pedestrian crossing signs that illuminate at night. For those interested, the construction drawings can be viewed on the project web page, [www.mountprospect.org/emersoncrosswalk](http://www.mountprospect.org/emersoncrosswalk).

### CONSTRUCTION SCHEDULE

The Village Board of Trustees has awarded a construction contract to MYS, Inc. of Palos Heights, Illinois. Preconstruction activity is scheduled to begin the week of July 6<sup>th</sup> with construction expected to begin the week of July 13<sup>th</sup>. A majority of the work will be completed by the end of August. There will be a slight delay of activity until fabrication of the large mast arm poles is complete. Installation of the mast arm poles and illuminated signs is expected to be done in September. In addition, any parkways damaged from construction will be restored with grass in the fall during cooler weather.

Once work begins on the raised pedestrian refuge island on Central Road, motorists will not be allowed to turn left from eastbound Central Road onto northbound Emerson Street. Also, access to northbound Emerson Street at Central Road will not be permitted during construction of the right-in/right-out median. Please plan to use an alternate route for access to Emerson Street north of Central Road during construction. Central Road and the south leg of Emerson Street will remain open but have periodic lane closures during the day. There will be no interruption to services such as mail delivery, garbage pick-up and emergency response. You will also have access to your driveway during construction.

### PROJECT INFORMATION

A project web page has been created and can be found on the Village web site at [www.mountprospect.org/emersoncrosswalk](http://www.mountprospect.org/emersoncrosswalk). It will periodically be updated throughout the project to provide the latest information.

### QUESTIONS DURING CONSTRUCTION?

Please visit the project web page for updated information throughout the project. Should you have additional questions during construction, please contact us.
